

Anne T. Caffrey Morton

Each year it is with both sadness and warm memories that I reflect upon some of the special members we have lost since our last annual message. This year is no exception. Some details about each of the individuals clearly represent simply a snapshot of my recollections and fall vastly short of any kind of summary of their individual contributions. In this reflection I often find meaning in the work we do, primarily because life is all about the legacy we leave for future generations.

Anne Morton – Known to me as my Aunt Anne, she was above all else a mother and a grandmother. Her professional training was that of a nurse, and she had the most important ingredient of a healer... undivided love. She loved wildlife, pets and children. She found great humor and joy in all events and had a contagious laugh. She made guests instantly comfortable in her home and was inquisitive about every aspect of everyone's lives. Her greatest joys were her children and husband. She will be sorely missed.
