

Hank Wyble

Annual Message January 2005

In the past week we lost another CU member, community leader Hank Wyble. On a couple of occasions CU was able to help Hank out with some river information he requested for his advertising business. He served on the boards of the Army Airfield Museum and the Millville Public Library, and on the Millville Planning Board (to name a few). In these capacities he contributed to some positive outcomes for the river's resources. Although he did not always share our view there were significant occasions when he did so. In his capacity on the Millville Planning Board he voted on the side of protection during the Genstar proposals. He also voted to have a developer do an extensive Environmental Impact Survey on property near the mouth of the Menantico Creek. Ultimately, this decision added nearly 100 acres to TNC's Bluffs preserve. And he voted for the City's River Conservation Plan/ Zone. He was a key player in designing signage for river visitors. But above all else he was a true gentleman. Our sympathies go to his wife and family.
